

## 16 - 19 Curriculum statement re:additional hours 2022-2023

To comply with the requirements around 40 hours additional supervision, to secure the increased 16-19 funding, the school has increased the PSHCE provision for all year 12 and 13 students from 50 mins per fortnight to 100 mins per fortnight to ensure a greater coverage of preparation for life skills and being independent learners. Also the allocation of supervised study sessions in the study centre with the study mentor has increased. The study mentor ensures students are focussed and also provides general study skills guidance to enable student progression. These are timetabled for year 12 in the study centre and for year 13 are nominated on their timetable and they are supervised on site in the Library. This leads to an average of 594 hours per student of supervised sessions, significantly above the required band 5 funding of 580 hours.
